

AIR MOVEMENT

High Temp Upblast Fan

Swing-Out Centrifugal Fan

Plug Fan

Gas Fired Door Heater

Automotive

Capabilities

- Standard or customized designs available
- Sizes from 8" to 79"
- CFM up to 220,000
- Up to 55" static pressure
- Adjustable pitch fan blades available
- Steel, aluminum, fiberglass and stainless steel construction
- Spark proof construction
- Self-tensioning pivot motor bases available

Applications

- Environmental
- Material handling
- Process cooling
- Door heaters
- Smoke and fume control
- Make-up air and heat
- Paint system fans
- High temperature fans

Features

- Automotive duty
- High efficiency
- Airfoil blade
- Heavy duty construction
- Made in USA
- Ease of installation
- Spark resistant
- Engineered solutions
- Factory mounted dampers, disconnects & starters

Tested in Accordance with AMCA Standards
